MARKETING: THE CORE, 2/e by Kerin, Berkowitz, Hartley, and Rudelius continues the tradition of cutting-edge content and student-friendliness set by Marketing 8/e, but in a shorter, more accessible package. The Core distills Marketing's 22 chapters down to 18, leaving instructors just the content they need to cover the essentials of marketing in a single semester. Instructors using The Core also benefit from a full-sized supplements package. The Core is more than just a "baby Kerin"; it combines great writing style, currency, and supplements into the ideal package.

Etzel, Walker, Stanton's Marketing, 12th Edition will continue to be a low-cost alternative in a paperback format, now including free access to PowerWeb. It incorporates technology throughout; in-text and boxed examples, chapter opening cases, and part-ending cases. This book was the first to incorporate WWW addresses and in this edition the authors go well beyond that with an in-depth look at how companies are making technology an important part of their successful marketing strategies. The authors have also made it a priority to integrate other important and current themes such as global marketing, customer relationships, small business and entrepreneurship. In this edition, the global marketing chapter was moved to the first part of the book (chapter 3) to introduce its importance early. Global examples and coverage are then integrated throughout. This edition offers a completely new design, a revised supplements package, a new interactive web page and a special package with Annual Edition online.

This textbook provides students with comprehensive insights on the classical and contemporary marketing theories and their practical implications. A fourth, revised edition of Marketing Management, the text features new classical and contemporary cases, new interdisciplinary and cross-functional implications of business management theories, contemporary marketing management principles and futuristic application of marketing management theories and concepts. The core and complex issues are presented in a simplified manner providing students with a stimulating learning experience that enables critical thinking, understanding and future application. Each chapter features a chapter summary, key terms, review and discussion questions and a practice quiz. Throughout the text there are also specific teaching features to provide students and instructors with an enhanced pedagogical experience. These features include: The Manager's Corner: These sections provide real-world examples that instructors may highlight to exemplify theory or as mini-cases for discussion. Marketing in Action: These sections ask students to apply concepts and theories to actual business situations. Web Exercises: These mini sections provide students with real world issues and suggest websites for more information. In addition, the authors provide ancillary lecture notes and Solution/Instructors manual online to aid instructors in their teaching activities.
