Gain an understanding of the principles behind cost accounting and its importance in organizational decision making and business today with the unique, reader-friendly approach in Hansen/Mowen/Heitger ' s COST MANAGEMENT, 5E. This edition addresses functional-based cost and control and, then, activity-based cost systems - giving you the skills to navigate any cost management system. Updates address emerging developments, including the role of data analytics in cost management today. An entire new chapter also examines global issues, such as virtual currency and blockchain. This edition's approach is tailored to the way you learn. Structured examples from familiar companies emphasize the real-world applications and relevance of what you are learning. Clear explanations review the concepts behind each equation or topic, detailing the hows, whys and what-ifs. Integrated CNOWv2 resources provide additional computerized exercises and problems for practice and review. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This extensively revised third edition serves as a textbook for B.Com. and other professional courses in accounting. It covers the new syllabus of Cost Accounting recommended by U.G.C. for B.Com. courses and also the syllabus of Cost Accounting (PE-II Exam., of ICAI). The text is example based and illustrates each concept by providing solved problems that demand the application of the concept. In addition, under the section, "Review Problems", complete solutions to a large number of problems selected from professional examinations have been incorporated. A key feature of the book is discussion at the end of each solution, under "Points to Remember", that provides insights into the problem. Learning cost accounting using this book will be more enjoyable as the problems are interesting and arranged in order of difficulty.

Quickly get up-to-speed in all basic accounting principles and procedures and apply that knowledge to real-world financial decisions and requests The McGraw-Hill 36-Hour Accounting Course has been the gold standard for anyone looking for a fast, no-nonsense primer in all the fundamentals of financial, managerial, and tax accounting concepts. Now thoroughly revised and updated, the fourth edition features new coverage of the technological developments in the field, the recent sweeping tax reforms, and the latest Financial Accounting Standards Board pronouncements. The McGraw-Hill 36-Hour Accounting Course offers such up-to-date coverage as: Complete analysis of the current trends in computer hardware and accounting software Coverage of current tax issues, such as the revision of tax rate structure, new deductions and credits for higher education costs, and taxation of Social Security benefits New test problems throughout to help you gauge your progress, as well as a final exam that can earn you a Certificate of Achievement Complete with a doable study plan, The McGraw-Hill 36-Hour Accounting Course is your fast track to easily mastering the essentials of accounting in the shortest time possible.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Year after year, this book has immensely helped students in their comprehension of the subject and score good marks in examinations. It has been written specifically for the prescribed syllabus of Cost Accounting Paper of BCom (Hons) Semester IV of the University of Delhi and of School of Open Learning. Its basic features are the same as the mother book Cost Accounting—Principles and Practice, which is a UGC-recommended text for the last many years. Thus, it gives a thorough grounding in cost concepts, cost behaviour, and costing methods. The subject matter has been organized on ' first things first ' basis to sustain the interest of the students. Every discussion involving conceptual difficulties is immediately followed by a numerical example.
