Report - UN Data

Revolution

Big Data essentially refers to a collection of large volumes of

new data. It's often

defined by the 3Vs:

data of very large

volume; produced at

high velocity; and of

high variety. The data

File Type PDF

The Data

revolution, in turn, is the explosion in the availability of Big Data. However, despite the buzz, the data revolution has yet to deliver on its promises. Is the data revolution a big fad?
