From the #1 New York Times bestselling author of *A Good Walk Spoiled*, a dramatic chronicle of the bitterly-fought 2016 Ryder Cup pitting a U.S. team out for revenge against the Europeans determined to keep the Cup out of American hands. Coming into 2016, the Americans had lost an astounding six out of the last seven Ryder Cup matches, and tensions were running high for the showdown that took place in October, 2016 in Hazeltine, Minnesota, just days after American legend Arnold Palmer had died. What resulted was one of the most raucous and heated three days in the Cup's long history. Award-winning author John Feinstein takes readers behind the scenes, providing an inside view of the dramatic stories as they unfolded: veteran Phil Mickelson's two-year roller-coaster as he upended the American preparation process and helped assemble a superb team; superstar Rory McIlroy becoming the clear-cut emotional leader of the European team, and his reasons for wanting to beat the US team so badly this time around; the raucous matches between McIlroy and American Patrick Reed - resulting in both incredible golf, and several moments that threatened to come to blows; the return of Tiger Woods not as a player but an assistant captain, and his obsession with helping the US win - which was never the case when he was playing. John Feinstein's classic bestseller, *A Good Walk Spoiled*, set the bar for golf books. Now Feinstein provides his unique take on the Ryder Cup, which has clearly become golf's most intense and emotional event...it's 'first Major.'

For a generation, Jerry L. Mashaw, the most boundary-pushing scholar in the field of administrative law, has argued that bureaucrats can and should self-generate the norms that give us a government of laws. *Administrative Law from the Inside Out* brings together a collection of twenty-one essays from leading scholars that interrogate, debate, and expand on themes in Mashaw's work as well as on the fundamental premises of their field. Mashaw has illuminated new ways of seeing administrative law, composed sweeping indictments of its basic principles, and built bridges to other disciplines. The contributors to this volume provide a collective account of administrative law's commitments, possibilities, limitations, and strains as an approach to governance and as an intellectual enterprise.

The bureaucracy is the fourth branch of government, often receiving attention in times of emergency or when it is the object of criticism from the media or politicians. Less understood is how bureaucratic institutions function in a democracy, both from an organizational perspective and as institutional participants within the political arena. Drawing on rational choice approaches, computationally intensive data and modeling techniques, and systematic empirical inquiry, this original collection of essays highlights the important role bureaucracies play in shaping public policy-making. The editors of and contributors to this volume demonstrate not only the constraints political officials face in harnessing the bureaucracy but, more important, how bureaucracies function as organizational entities in diverse contexts. George A. Krause is Associate Professor of Political Science, University of South Carolina. Kenneth J. Meier is Charles Puryear Professor of Liberal Arts and Professor of Political Science, Texas A&M University.

The end of the world is only just the beginning. So eighteen-year-old Thea discovers when her solitary life on a dying Earth is shattered by a mysterious dream, a devastating choice, and a strange gift that propels her on a journey towards the restoration of all mankind. Thea is bitter and alone, just like everyone else left eking out an existence on a sunless, cloud-covered Earth. A terrifying dream convinces her to save the life of sixteen-year old Viviana, who has a deadly infection, as well as a freakish patch of glowing skin over her heart. When this light spreads to Thea, causing her palms to glow, she is forced to trust Caden, an arrogant, lazy, and annoyingly handsome boy she utterly despises. Caden has a map to the last city on Earth, and the only place that might have a cure for both Viv's infection and the strange light on Thea's hands. As the trio embark on a journey through the barren wilderness, Thea and Caden discover, and try to fight, their mounting attraction to each other. Along the way they are joined by Rain, Naomi, and Enoch who explain that the light is not a curse, but a powerful gift meant to heal the polluted Earth and reconnect the remnants of humanity. When the group learns that Viv is the key to this planet-wide redemption, and that there are deadly shadows who will do anything to keep humans in the darkness forever, they each must make the difficult decision to help Viv fulfill her destiny...and save the world. Don't miss *THE WAR INSIDE*, an exciting young adult dystopian/fantasy novel by debut author M. Kircher.
